SECTION 4 - FIRST AID MEASURES

Inhalation: Remove victim to fresh air. Give artificial respiration only if breathing has stopped. Give cardiopulmonary resuscitation if there is no breathing and no pulse. Get immediate medical attention.

Skin: Immediately flush with running water for at least 20 minutes. Under running water, remove contaminated clothing and shoes. If irritation persists, repeat flushing. Get medical attention. Completely decontaminate clothing and shoes before re-use.

Eyes: Flush immediately with water for at least 20 minutes. Forcibly hold eyelids apart to ensure complete irrigation of eye/lid tissue. Get immediate medical attention.

Ingestion: Never give anything by mouth to an unconscious person. Give 1/2 to 1 glass of water to dilute material. **DO NOT INDUCE VOMITING.** If vomiting occurs spontaneously, keep airway clear and give more water. Get immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

<u>Extinguishing Media</u>		<u>Specific Hazards</u>	<u>Protective Equipment</u>
<u>Suitable</u> Small Fire: Dry Chemical Carbon Dioxide	<u>Unsuitable</u> Water Organic Materials	Not flammable but highly reactive. Capable of igniting finely divided combustible materials on contact. Hydrogen can accumulate to explosive concentrations inside confined spaces.	Self-contained breathing apparatus {(SCBA), MSHA/NIOSH}. Full protective gear.

Special Firefighting Procedures

For fighting fires in close proximity to spill or vapors, use acid resistant personal protective equipment. Evacuate residents who are downwind of fire. Prevent unauthorized entry to fire area. Dike area to contain runoff and prevent contamination of water sources. Neutralize runoff with lime, soda ash or other suitable neutralizing agents. Cool containers that are exposed to flame with streams of water.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions: Allow only trained personnel wearing appropriate protective equipment to be involved in the spill response.

Protective Equipment: None.

Emergency Procedures: None.

Environmental Precautions: Prevent material from entering waterway.

Methods for Cleaning-Up: Dike area, prevent material from entering waterway.
Remove all ignition sources. Ventilate area. Stop leak at source, if safe to do so. Collect into containers for reclamation or disposal. Deactivating chemicals: Lime, limestone, sodium carbonate, sodium bicarbonate, dilute sodium hydroxide, dilute aqua ammonia.

Other Precautions: None.

SECTION 7 - HANDLING AND STORAGE

<u>Handling</u>	<u>Storage</u>
Avoid contact with skin, eyes and clothing. Wear appropriate personal protective equipment. Do not breath sprays or mists. Do not ingest. Wash thoroughly after handling. Always add acid to water - NOT water to acid.	Store packaged acid in a dry, well ventilated location away from combustibles, oxidizers, bases or metallic powders. Keep ignition sources away from sulfuric acid storage, handling and transportation equipment. Store above freezing point (-21.1 °F @ 93%).
